WHO HAS THE PARENTAL RESPONSIBILITY FOR THE CHILD?*	WHO CAN CONSENT FOR THE MEDICAL TREATMENT FOR THE CHILD?
<input type="checkbox"/> Mother Name: _____ <input type="checkbox"/> Father Name: _____ <input type="checkbox"/> Joint Names: _____ <input type="checkbox"/> Other, (please specify) _____	<input type="checkbox"/> Mother Name: _____ <input type="checkbox"/> Father Name: _____ <input type="checkbox"/> Joint Names: _____ <input type="checkbox"/> Other, (please specify) _____

*Parental responsibility refers to the legal rights and responsibilities that parents have for their children, which includes the responsibility for consenting to a child's medical treatment. Birth mothers, or fathers who are either married to birth mother or named on a birth certificate, will *usually* have parental responsibility. Other people may also take on parental responsibility during a child's life. For full details, see: <https://www.gov.uk/parental-rights-responsibilities/who-has-parental-responsibility>

Please state any Mental disabilities you would like us to be aware of	
Please state any requirements you may have to be able to access the Practice premises	
Please state any Religious or Cultural needs: (Jehovah's Witnesses etc..)	

Data Sharing and YOUR Medical Records "Your Data Matters"

Your medical records can be made visible to some other organisations who provide healthcare services to you. For more information you can visit www.castledoningtonsurgery.co.uk or ask for an information leaflet from reception.

Summary Care Records

Summary Care Records (SCR) are an electronic record of important patient information, created from GP medical records. A Summary Care Record will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had. Giving healthcare staff access to this vital information can help them treat you more quickly and effectively in an emergency or when your GP practice is closed. Children under 16 will automatically have a basic Summary Care Record. You can choose to have an enhanced summary care record which contains all of the above as well as relevant medical history, immunisations and long term medical conditions.

Enhanced Summary Record <i>Medication, bad reactions/allergies and additional information, including relevant medical history, immunisations and long term medical conditions.</i>	<input type="checkbox"/>
Decline Summary Care Record <i>If you do not wish for your child to have a SCR you will need to fill in an opt-out form..</i>	<input type="checkbox"/>
